CHOICE BASED CREDIT SYSTEM-2023-24

M.B.A Course Structure and Syllabi (New)

MBA Programme Outcome:

The MBA programme is visualised to prepare graduates from different disciplines to design business solutions for problems across the various functional domains of Management; to contribute to the growth and development of the society through their research acumen and entrepreneurial skills; and to develop the requisite interpersonal skills and aptitude. More specifically, on successfully completing the program, the student will be able to:

- Demonstrate the knowledge of management science to solve complex corporate problems using limited resources.
- Review research literature, identify and analyse management problems and utilize qualitative and quantitative methods to investigate and solve critical business problems.
- Identify business opportunities, design and implement innovations in work space.
- Integrate tools and concepts from multiple functional areas like finance, marketing, operations and human resource management to solve business problems.
- Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal, and cultural issues and the consequent responsibilities relevant to management practice.
- Incorporate ethical principles, diversity and multicultural perspectives when making business decisions.
- Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.
- Communicate effectively with all stakeholders of his role as a manager.
- Engage in independent and life-long learning.

* 1 hour per student per week

1. Soft Core Courses in I and II Semesters:

Any two soft core courses from the available Soft Cores shall be selected by a student at the commencement of I and II Semesters. The Department Council/ Affiliated College will announce at the beginning of the first and second semesters, any two or more soft core papers which will be offered during I and II semesters depending upon the availability of faculty and the demand for soft core courses. The minimum number of students opting for a soft core course should be ten.

2. Elective Groups:

Any one **group** from the available **Soft Core Groups** shall be selected by a student at the commencement of III Semester. Once a group has been selected, no change in the selected group will be allowed later in the fourth semester. The Department/ Affiliated College will announce at the end of the second semester, any one or more Soft Core Groups which will be offered during III and IV semesters depending upon the availability of faculty members and the demand for soft core group. A Soft Core Group can be offered if there are minimum ten students opting for that group.

*****Project Work:**

A student in the third semester shall register for a Project Work which carries 4 credits in the fourth semester. **Work load for Project Work is one contact hour per student per week for the teacher.** The student shall do field work and library work in the remaining 3 credit hours per week.

Evaluation of Project report

- 1) 30 marks viva –voce examination and 70 marks final report evaluation.
- 2) Viva voce examination shall be conducted by the BOE in the department.
- 3) Each Panel of Examiners consist of 01 Chairperson (to be nominated by BOE Chairman from the approved panel examiners) and 03 more Examiners including at least 01 external examiner.
- 4) Each panel can conduct project viva of maximum 40 students per day.

Study Tour: All students are required to attend one industrial/ study tour to be organised by the institution/department and prepare a report. Report shall be submitted to the institution/department.

Internship:

Internship is an integral part of the MBA academic curriculum and its satisfactory completion is a mandatory requirement for the award of the degree. Under the program, the students are required to undertake an internship assignment within assigned companies for hands-on corporate experience and for integrating the knowledge and skills. SIP also offers students the opportunity to gain exposure to industry projects; interactions with professionals and other summer interns; and improving their presentation, writing, and communication skills.

Internship Objectives is designed for students to:

1. Transfer their analytical, integrative, team skills honed in the classroom to the workplace.
2. Understand the complexities of the corporate world first hand.
3. Focus on a narrow problem within a selected topic/field – typically a micro theme – to facilitate an in-depth study using quantitative/qualitative measurement tools to organize and analyze data, intensively focusing on the area to arrive at reasoned conclusions about the issue or problem.
4. Identify opportunities for networking with people in industry/ corporate / organizations.
5. Aim for pre-placement offers where feasible/appropriate.

DURATION: Internship is scheduled during the summer between the first and the second year. It generally spans for six weeks. The duration may be extended beyond six weeks, but in no case should exceed eight weeks.

After completion a) The student intern shall submit the SIP Report (including completion certificate from external guide) to the Faculty Mentor within one week of commencement of the ensuing semester. b) The student must make a detailed presentation before the faculty committee on SIP at the beginning of next semester.

Examination Result

- i. A Candidate shall be considered to have passed a semester if he/she obtains not less than 35% marks in each paper and 40% marks in the aggregate of both internal assessment and semester end examination marks put together and 50% in the aggregate of all the papers in each semester. However, if a candidate has to get exemption in any paper, he/she has to obtain at least 50% marks in written examination and internal assessment put together in that paper.
- ii. There shall be no minimum in respect of internal assessment.
- iii. A candidate who fails in any of papers / Project report / Viva-voce shall reappear in that paper/ papers/ project report /viva-voce and pass the examination subsequently.

Question paper pattern

1. Theory paper pattern:

	Section- A	
One compulsory question		(1 x 15 =15)
	Section- B	
Five out of eight questions.		(5 x 8 = 40)
	Section-C	
One compulsory question (case study/practical question)		(1 x 15 =15)

2. Practical paper pattern:

	Section- A	
Two out of three questions		(2 x 10 = 20)
	Section- B	
Three out of five questions		(3 x 12 = 36)
	Section-C	
One compulsory question (case study/practical question)		(1 x 14 = 14)

Note: The following papers are practical in nature and practical question paper pattern will be used in the semester examinations.

Name of the Program: Master of Business Administration (MBA) MBAH 104: INFORMATION TECHNOLOGY IN BUSINESS		
Course Credits	No. of Hours per Week	Total No. of Teaching Hours
4 Credits	4 hours	56 hours
Pedagogy: Classroom Lectures, Tutorials, Group discussions, Seminars, Practical, Case studies, etc.		
Examination: 30 marks continuous evaluation and 70 marks final examination.		
Objectives: <ol style="list-style-type: none"> 1. To identify the application of Information Technology in business and industry. 2. To explain the utility of e-commerce and m-commerce in business, along with their legal and ethical issues. 3. To differentiate between traditional file systems and database management systems. 4. To outline the role of hardware and operating software in modern business 5. To identify various Microsoft Office software tools that can be adopted in an organization. 6. To identify the different types of Information Systems. 		
Course Outcomes: On successful completion of the course, the students will be able to <ol style="list-style-type: none"> 1. Apply Information Technology in various functional areas of business. 2. Appraise an appropriate infrastructure to support e-commerce and m-commerce within the legal and ethical framework. 3. Develop an effective database management system for an organization. 4. Effectively adopt an operating system in the organization 5. Effectively apply MS Word, MS Excel and MS PowerPoint in academic and non- academic work. 6. Design and implement Information Systems. 		
Syllabus		Hours
Module No.1: Information Technology		
Information Technology: Application of information technology, uses of information technology, impact of information technology on business.		
Module No. 2: Information System Resources		
Information System Resources-Computer basics (H/w & S/w), DBMS, Communication Systems, Internet and office automation.		
Module No.3: Information System Management		
Information System Management - Information Concepts -, its nature and functions, planning issues and the MIS organizing issues and the MIS - control issues and the MIS - Decision Support Systems.		
Module No. 4: Application of MIS		
Use of MIS at various levels of Management. A framework for information systems for each level of Management and Operations. Types of Information systems – Operating Support Systems, Management support systems, Expert Systems.		
Module 5: E-Commerce		
Electronic commerce. Infrastructure for e-commerce, communication networks for e-commerce, payment systems in e-commerce, the impact of E-commerce on Business. E-commerce in Indian Business Context, Business Models for e-commerce. Electronic Commerce - types - advantages and disadvantages. Electronic data interchange - How EDI works - EDI benefits and limitations. Information Systems for Mobile Commerce, Legal and Ethical Issues in E-commerce and M-		

commerce.	
Module 6: Micro Soft Word	
Word processing with MS Word - starting MS Word - MS Environment - working with Word documents - working with text - working with tables - checking spelling and grammar - printing documents - creating mailing lists- mail and merge.	
Module 7: Micro Soft Excel	
Concept of Spread-sheet and MS Excel - starting MS Excel - MS Excel Environment - working with Excel – workbook. Preparation of charts and graphs with excel -working with workbook. Working with functions – Summary statistics, correlations, regression. Sort and filter commands	
Module 8: MS Power Point	
Making presentations with MS Power Point - starting MS Power Point - MS Power Point Environment - working with Power Point - working with different views - designing presentations - printing in Power Point.

Pedagogy: Lectures, assignments, practical exercises, discussions, seminars, etc.		
Examination: 30 marks continuous evaluation and 70 marks final examination.		

Objectives:	
<ol style="list-style-type: none"> 1. To familiarize the students with the production process and related issues in industrial Units. 2. to know the aspects like quality, Inventory, Maintenance, materials management; and Methods analysis 3. To familiarize the students with the Work Study and Work Measurement. 4. To study the modern methods of operations management 5. To study the Resources Planning 6. To study the Scheduling of Operations management 7. To study JIT, lean, 5s, TPM, BPR, six sigma, world class fabrication principles. 	
Course Outcomes:	
<ol style="list-style-type: none"> 1. Define different types of productivity, and productivity measures. 2. Apply principles of value analysis and value engineering to specific operations management situations. 3. Apply different types of charts and diagrams to conduct study of the work and the method. 4. Explaining the need for aggregate planning, and the aggregate planning steps. 5. Able to prepare Resources Planning and Scheduling of Operations. 6. Illustrate how organizational capacity planning and its relationship to MRP is performed. 7. Elaborate on the JIT, lean, 5s, TPM, BPR, Six Sigma, and World Class Fabrication Principles. 	
Syllabus	Hours
Module No.1: Introduction	
Importance and significance of productivity, Productivity concepts – Macro and Micro factors of productivity, productivity from product and service perspective, different inputs and productivity measures, Various ratios related to finance, material and service.	
Module No. 2: Value Analysis and Value Engineering	
Concept of Cost, Price and Value, Role in Productivity, Procedure – Application and productivity benefit model.	
Module No.3: Work Study	
Importance of work study – Method Study and Work Measurement – Pioneers of Performance Measurement. Method Study: Need for Method Study – Procedure of Method Study –Process Flow charts, Man machine diagrams, Principles of Motion Economy.	
Module No. 4: Work Measurement	
Techniques of Work Measurement including Estimating, Stopwatch Time Study, Predetermined Time Standards, Synthetic Estimates of Work, Times, Activity Sampling. Computation of Standard Time – Elements–Types of Elements–Performance Rating–Allowances–Need for Allowances–Types of Allowances.	
Module No 5: Planning & Control of Operations	
Need, Functions - Routing, Scheduling, shop loading and dispatch, follow up. Relations with other departments, Routing-Process layout indicating flow Chart of material from machine to machine. Dispatch in production control-documentation.	
Module No 6: Demand Forecasting	
Forecasting as a planning tool, why do we forecast, Forecasting time horizon, Design of forecasting systems, Developing the logic of forecasting, Sources of data, Models for forecasting, Extrapolative methods using time series, Causal methods of forecasting, Accuracy of forecasts, Using the forecasting system.	
Module No 7: Aggregate Production Planning	
Planning Hierarchies in operations, Aggregate Production planning, need for Aggregate	

Production planning, Alternatives for managing demand, Alternatives for managing supply, Basic strategies for aggregate production planning, Aggregate production planning methods, Master Production Scheduling.	
Module No 8: Resources Planning	
Dependent Demand Attributes, planning a framework – the basic building blocks: Multiple levels in products, Product Structure, The Bill of Materials, Time phasing of the requirements, Determining the Lot Size, Incorporating Lead time information, Establishing the planning premises. MRP Logic, Using the MRP system, Capacity Requirements planning, Manufacturing Resources Planning (MRP II), Enterprise Resource Planning (ERP), Resource Planning in services.	
Module No 9: Scheduling of Operations	
Need for Scheduling, Scheduling – Alternative terms, loading of machines, Scheduling Context, Scheduling of Flow Shops, Scheduling of Job Shops, Input-Output Control, Operational Control Issues in Mass production systems.	
Module No 10: Advanced Methods of Productivity and service level enhancements:	
Overview of JIT, Lean, 5S, TPM, BPR, Six Sigma, World Class manufacturing, Use of Technology in productivity and service enhancements: ITeS, CAD, CAM, CIM, CMMI.	
<p>Books for Reference:</p> <ol style="list-style-type: none"> 1. Productivity Measurement for Business Excellence, PremVrat, G.D. Sardana, B.S. Sahay, Narosa Publishing House. 2. MBAS 207: SUPPLY CHAIN MANAGEMENT		
Course Credits	No. of Hours per Week	Total No. of Teaching Hours
4 Credits	4 hours	56 hours
Pedagogy Lectures, assignments, Industrial visits and practical exercises, discussions, seminars, etc.		

Examination: 30 marks continuous evaluation and 70 marks final examination.	
Objectives:	
<ol style="list-style-type: none"> 1. Know the concepts of Supply chain – its benefits, trends and features. 2. Outline the difference between CRM and SCM and to understand the role of managers in management of supply chain 3. Acquire knowledge on logistics management. 4. Evaluate the dynamics of global business environment from a competitive and economic perspective. 5. To study the Co-ordination in the supply chain 6. To study the role of Information technology in a supply chain 7. To study the significance of Global Supply Chain Management 	
Course Outcomes:	
<ol style="list-style-type: none"> 1. Prepare the students to meet challenges of supply chain management. 2. Prepare the students to select appropriate CRM channel best suited for different firms. 3. Prepare the students to meet challenges of logistic. 4. Able to provide solutions to the SCM problems. 5. Understand the significance of Co-ordination in the supply chain. 6. Able to understand and effectively use Information technology in a supply chain. 7. Able to manage Global Supply Chain Management. 	
Syllabus	Hours
Module No.1: Introduction to SCM	
Basic concepts & philosophy of SCM, Essential features, Infrastructure flows (Cash, Value and information). Supply chain strategy. Key issues in SCM, benefits.	
Module No. 2: Conceptual Clarity	
CRM Vs SCM, Outsourcing –basic concepts, value addition in SCM – concept of demand chain-management.	
Module No.3: Logistics Management	
Logistics of part of SCM, logistics costs, different models, logistics, sub-systems, inbound and out bound logistics, bullwhip effects in logistics.	
Module No. 4: Recent Trends in Supply Chain Management-Introduction	
New Developments in Supply Chain Management, Outsourcing Supply Chain Operations, Co-Maker ship, The Role of E-Commerce in Supply Chain Management, Green Supply Chain Management, Distribution Resource Planning, World Class Supply Chain Management	
Module No 5: Supply Chain Benchmarking- Introduction	
Understanding the Benchmarking Concept, Benchmarking Process, Benchmarking Procedure.	
Module No 6: Co-ordination in the supply chain	
Bull-whip effect, the impact of lack of co-ordination on supply chain, Managerial obstacles to co-ordination within a supply chain, Building strategic partnership and trust within a supply chain, Internal supply chain management, Managing supplier relationship.	
Module No 7: IT in Supply Chain Management	
Information technology in a supply chain, Role of computer, Drivers of new supply chain systems and applications, Information for strategic supply chain management, supply chain information technologies, Computer based information systems, logistics information systems, New information technologies, Enterprise resource planning systems, Designing the information system for logistics and supply chain management.	

Module No 8: Global Supply Chain Management: Global Strategy	
Concept of global logistics and Global supply chains, Global supply chain management vs domestic supply chain management, trends towards global supply chain management, global supply chain strategy, global sourcing, global purchasing, and supply relations.	
Books for Reference: <ol style="list-style-type: none"> 1. Donald J. Bowersox& David. J Closs,-Logistical Management-Tata McGraw Hill 2. John T. Name of the Program: Master of Business Administration (MBA) MBAS 210: MARKETING ANALYTICS		
Course Credits	No. of Hours per Week	Total No. of Teaching Hours
4 Credits	4 hours	56 hours
Pedagogy: Lectures, assignments, practical exercises, discussions, seminars, etc.		
Examination: 30 marks continuous evaluation and 70 marks final examination.		
Objectives:		
<ol style="list-style-type: none"> 1. To give a broad overview of marketing analytics to people who don't have any related background. 2. To describe all the critical topics in a consumer-focused analytic approach. 3. To describe the students who have learned plenty of theories and want to learn how to apply methodologies. 4. To learn how analytics work in real life.' 5. To describe an overview of the most actionable techniques that virtually any organization can apply to gain immediate benefits. 6. To study scientific and innovative solutions to common marketing problems in the current business environment. 7. To study the recent trends in marketing analytics. 		
Course Outcomes:		
<ol style="list-style-type: none"> 1. After understanding marketing analytics the student can become a marketing analyst.' 2. Marketing analytics would save a lot of independent research 3. Students will be sound smarter in the boardroom after understanding marketing analytics. 4. Understanding of marketing analytics adds a completely new dimension to marketing science.' 5. It helps to Optimize Your Marketing Spending Using Customer Data. 6. It helps to present meaningful, clear data to support decision making and convince stakeholder. 7. Understanding of marketing analytics helps a company make informed business decisions. 		
Syllabus		Hours
Module No.1: Introduction to marketing analytics		
Summarize Marketing Data: Slicing and Dicing Marketing Data with PivotTables, Using Excel Charts to Summarize Marketing Data, Using Excel Functions to Summarize Marketing Data.		
Module No. 2: Pricing		
Estimating Demand Curves and Using Solver to Optimize Price, Price Bundling, Nonlinear Pricing. Price Skimming and Sales, Revenue Management.		
Module No.3: Forecasting		
Simple Linear Regression and Correlation, Using Multiple Regression to Forecast Sales, Forecasting in the Presence of Special Events, Modelling Trend and Seasonality, Ratio to Moving Average Forecasting Method, Winter's Method, Using Neural Networks to Forecast Sales.		
Module No. 4: Customer Value		
Calculating Lifetime Customer Value, Using Customer Value to Value a Business, Customer Value, Monte Carlo Simulation, and Marketing Decision Making, Allocating Marketing Resources between Customer Acquisition and Retention		
Module No 5: Market Segmentation		
Cluster Analysis, Collaborative Filtering, Using Classification Trees for Segmentation		

Module No 6: Forecasting New Product Sales	
Using S Curves to Forecast Sales of a New Product, The Bass Diffusion Model, Using the Copernican Principle to Predict Duration of Future Sales.	
Module No 7: Retailing	
Market Basket Analysis and Lift, RFM Analysis and Optimizing Direct Mail Campaigns, Using the SCAN*PRO Model and Its Variants, Allocating Retail Space and Sales Resources, Forecasting Sales from Few Data Points	
Module No 8: Advertising	
Measuring the Effectiveness of Advertising, Media Selection Models, Pay per Click (PPC), Online Advertising	
Module No 9:	
Marketing Research Tools- Principal Components Analysis (PCA) Multidimensional Scaling (MDS), Classification Algorithms: Naive Bayes, Classifier and Discriminant Analysis, Analysis of Variance: One-way ANOVA, Analysis of Variance: Two-way ANOVA.	
Module No 10:	
Internet and Social Marketing- Networks, The Mathematics Behind <i>The Tipping Point</i> , Viral Marketing, Text Mining

Name of the Program: Master of Business Administration (MBA) MBAH 303: OPERATIONS RESEARCH		
Course Credits	No. of Hours per Week	Total No. of Teaching Hours
4 Credits	4 hours	56 hours
Pedagogy: Lectures, assignments, practical exercises, application of operations research, techniques to business related problems, etc.		
Examination: 30 marks continuous evaluation and 70 marks final examination.		
Objectives:		
<ol style="list-style-type: none"> 1. To acquaint with the application of operations research to business and industry. 2. Help them to grasp the significance of analytical techniques in decision making. 3. To study how to manage the projects with limited resources. 4. To study the applications of transportation models in business. 5. To study the network analysis to manage projects. 6. To study the LLP models in business. 7. Know about simulation its business Applications 		
Course Outcomes:		
<ol style="list-style-type: none"> 1. Able to identify the applications of OR in business. 2. Acquire the OR skills to manage business operations. 3. Understand the applications of multiple subjects to manage activities. 4. Understand the difference between real world problems and simulated problems. 5. Able to apply transportation models in business. 6. Able to understand and apply replacement decisions effectively. 7. Able to manage the projects with limited resources 		
Syllabus		Hours
Module No.1: Introduction		
Nature and scope of Operation Research. Basic concepts and definitions - methodology of OR. Construction, solution and testing of model.		
Module No. 2: Linear Programming (L.P)		
Concept and formulation of L.P. models – graphical technique, working on simplex algorithm and interpretation of final results, duality problems, Sensitivity Analysis		
Module No.3: Transportation and Assignment problems		
Formulation of transportation problem, types, Optimality in Transportation problem, application of transportation problem. Assignment Problem- Formulation, Solutions to assignment problems, Special cases in assignment problems, Travelling Salesman Problem (TSP). Difference between assignment and T.S.P, Finding best route by Little’s method. Numerical Problems.		
Module No. 4: Network analysis (PERT/CPM)		
Drawing an arrow network and numbering the events. Estimation of job duration, the concept off slack and float, the concept of critical path analysis and probability considerations, crashing a network and determining project cost trade off.		
Module No 5: Game Theory		
2-person zero-sum games, solution methods, use of L.P.		
Module No 6: Waiting line series		
Basic structures and components of a queuing system. Design of the queuing system. A single		

channel, single-phase queuing models, Multi-channel model with business examples.	
Module No 7: Replacement Decisions	
Replacement of capital equipment's that deteriorates with time, replacement of items that fail completely.	
Module No 8: Simulation	
Basic concepts, Monte Carlo method, random number generation, some business application of simulation models.

Name of the Program: Master of Business Administration (MBA)		
MBAS 315: International Banking		
Course Credits	No. of Hours per Week	Total No. of Teaching Hours
4 Credits	4 hours	56 hours
Pedagogy: Lectures, assignments, practical exercises, discussions, seminars, etc.		
Examination: 30 marks continuous evaluation and 70 marks final examination.		
Objectives:		
<ol style="list-style-type: none"> 1. Comprehend the role, policies and practices, and products of international banking. 2. To describe the International payments system. 3. Describe international capital market and capital flows 4. Categories foreign exchange risk and its effect 5. Identify the various agencies and intermediaries of international capital flow. 6. To describe the Asset and liability managements of foreign banks 7. To describe the recent trends in international banking. 		
Course Outcomes:		
<ol style="list-style-type: none"> 1. Understand the role of international banking in developing and promoting regional and global relationship. 2. Able to manage International payments system. 3. Able to understand and procure capital from international financial market. 4. Understand the foreign exchange risk and able to manage it 5. Able to identify various agencies and international financial institutions which provides financial assistance for development. 6. Able to assess the ratings of International rating agencies. 7. Able to handle Asset and liability managements of foreign banks 		
Syllabus		Hours
Module No.1: Introduction to International Banking		
Evolution of international banking: International banking: A Functional Overview –Banking for financing of exports and imports of goods and services. International payments system.		
Module No. 2: International Capital Market		
International capital markets-financial market flows beyond national boundaries, Debt and non-debt flows; volatile and stable flows; interest rate differentials and their role in demand for and supply of funds across borders.		
Module No.3: Off shore Banking		
Off shore banking centres and their role international financing, Global Balance sheet of banks. Asset and liability managements of foreign banks.		
Module No. 4: International Lending		
International lending, policies and practices, transaction cost and risk in international lending. Profitability of international banking. Loans to foreign corporation, syndicated loans; financing foreign governments. Issues of information symmetries and adverse selection. Regulatory and supervisory aspects. Trends in international banking in India.		
Module No 5: Foreign Exchange		
Foreign exchange risks; the exchange rate swings and their effects on bank's net worth		

Module No 6: International Rating Agencies	
International rating agencies. Country risk. International financial stability and the central role of banks in financial stability.	
Module No 7: International Financial Institutions	
International Financial Institutions: World Bank, IMF, BIS, Regional Development Banks, New Development Bank.	
Module No 8: Recent Trends	
Issues relating to international financial architecture.	
<p>Books for Reference:</p> <ol style="list-style-type: none"> 1. Rupnarayan Bose, Fundamentals of International Banking, Laxmi Publications (2007) 2. World bank, IMF ADB, BRICS Bank websites. 3. Name of the Program: Master of Business Administration (MBA) MBAS 316: HOSPITAL SERVICES MANAGEMENT		
Course Credits	No. of Hours per Week	Total No. of Teaching Hours
4 Credits	4 hours	56 hours
Pedagogy: Lectures, assignments, practical exercises, discussions, seminars, etc.		
Examination: 30 marks continuous evaluation and 70 marks final examination.		
Objectives:		
<ol style="list-style-type: none"> To Familiarize with the various services of the OPD, Radiology, Diagnostic. To describe the specialty services offered by the hospital. To understand the need for Clinical Services for hospitals. Assess various risk management practices To provide with the knowledge of hospital planning and administration. To study the importance of Supportive and Utility Services To describe the significance of waste management and disaster management 		
Course Outcomes: On completion of this course the students will be able to:		
<ol style="list-style-type: none"> Understand and know the services provided by hospitals and manage it. Manage the risk associated with hospital management Able to manage hospital planning and administration. Provide efficient Supportive and Utility Services to hospitals. Able to provide good Clinical Services Able to provide and manage occupational safety in hospitals Able to handle waste management. 		
Syllabus		Hours
Module No.1: Introduction		
Evolution of Hospital Services, Features, objectives importance, service quality concept and its significance, recent development and present conditions of health care services in India.		
Module No. 2: Clinical Services		
Outpatient services, Day care, Accident and emergency services, inpatient Dept. operation theatre, intensive care, PMR service.		
Module No.3: Speciality Service:		
Pediatrics, OBG, GYN, ENT, Ophthalmology, Orthopedic, Psychiatry, Anesthesia Dental, Super speciality, Neurology, Thoracic Surgery, Neurology, Nephrology, Dialysis Unit, Transplantation Survey Dermatology.		
Module No. 4: Diagnostic and Therapeutic Services		
Laboratory Services Radiology, Pharmacy – Blood Bank and Transfusion		
Module No 5: Supportive and Utility Services		
Dietary Services, Linen and Laundry Pharmacy – Mortuary – Ambulance. Marketing and public relations, Housekeeping – Biomedical Department, Purchase Department, Engineering and maintenance Medical Records.		
Module No 6: Risk Management		
Hospital Waste Management, Nosocomial Infections – Disaster Management. Hospital Security		

Services – Occupational Safety in Hospitals.

Books for Reference:

1. Sakharkar B M-Principles of hospital administration and Planning-Jaypee Publications.
2. Goel S.L. & Kumar R. - Hospital Core Services- Deep & Deep Publications Pvt. Ltd.
3. Kunders G.D. -Hospitals facilities planning and management- Tata McGraw – Hill publishing Co. Ltd.

Name of the Program: Master of Business Administration (MBA) MBAS 317: HOSPITAL PLANNING AND ADMINISTRATION		
Course Credits	No. of Hours per Week	Total No. of Teaching Hours
4 Credits	4 hours	56 hours
Pedagogy: Lectures, assignments, practical exercises, discussions, seminars, etc.		
Examination: 30 marks continuous evaluation and 70 marks final examination.		
Objectives <ol style="list-style-type: none"> 1. To provide basics of hospital planning and administration. 2. To provide structure, organization and management of the hospital. 3. To provide the knowledge relates to Planning and Designing Administrative Services. 4. To study planning and designing medical and ancillary services. 5. Prepare the students to meet requirements of hospital administration. 6. To describe the importance of safety and security in hospitals. 7. To describe the recent advances in hospital planning 		
Course Outcomes: After completion of the course the students will be able to: <ol style="list-style-type: none"> 1. Familiarize with the designing of hospital systems. 2. Understand the uniqueness of hospital organization, structure, subsystem. 3. Able to plan and design administrative services. 4. Able to plan and design medical and ancillary services requirements. 5. Assess the various hospital safety measures. 6. Evaluate a suitable information system for hospital services. 7. Able to manage Safety and security in Hospitals 		
Syllabus		Hours
Module No.1: Introduction		
History and Development of Hospitals, Classification role and functions. Hospitals in India today – Hospital as a system. Planning of hospitals- Promoting and building – new hospital–guiding principles in planning hospital facilities and services Preliminary Survey – Financial Planning – Equipment Planning – Permanent Hospital Organization – Planning Early Consideration – Operational Planning and Functioning Planning. Facility Master Plan – Design Team – Design Development Stage – Plan Stage – Planning the hospital building. Building contract and contract document – furnishing and equipping the hospital – purchase of hospital equipment ready to operate stage.		
Module No. 2: Organization and Management of the Hospital		
Overview – organization structure – Management structure – organization charts- Two lines of authority in hospital – professional management of the hospital – orientation training and development, getting the hospital to be in readiness - To operate professionally.		
Module No.3: Planning and Designing Administrative Services		
Introduction- Executive suite - Financial Management Unit -Hospital Information system- Nursing service Administrative unit - Human Resource Management - Public Relations- Marketing.		
Module No. 4: Planning and Designing Medical and Ancillary Services		
Outpatient services– Emerging Services – Clinical Laboratories – Radiological – Radiation therapy department – Nuclear medicine – surgical department – Labour and Delivery suit-		

Physical therapy – Recreational therapy speech and hearing therapy – cardiac catheterization laboratory (CATH LAB).	
Module No 5: General Nursing Unit	
Pediatric Nursing unit – Obstetrical Nursing Unit – Psychiatric Nursing – Isolation Room – Intensive care unit –coronary care unit (ICU CCU). New born nurseries.	
Module No 6: Planning and Designing Supportive services and Staff facilities	
Admitting Department – Medical Record Department – Central sterilization and supply Department – Pharmacy – Material Management. Food Services Department Laundry and Linen .Department- Housekeeping – volunteer department.	
Module No 7: Planning and designing Hospital Services	
Factors impacting on the service engineering Department – Maintenance Department – Clinical engineering (Biomedical) Electrical system, Air conditioning system – water supply and sanitary system – centralized medical gas system – communication system – environmental control – solid waste management – transportation.	
Module No 8: Safety and security in Hospitals	
Safety in hospital – security and loss prevention system – fire safety – bomb threat – Alarm system –Disaster Management	
Module No 9: Recent advances in Hospital Planning	
Green hospital designs, Implementation of green hospital strategies, Planning and design of value added services in health care industry, planning for telemedicine, Role of hospital planning in medical tourism.

Name of the Program: Master of Business Administration (MBA)		
MBAS 318: Health Economics and Insurance		
Course Credits	No. of Hours per Week	Total No. of Teaching Hours
4 Credits	4 hours	56 hours
Pedagogy: Lectures, assignments, practical exercises, discussions, seminars, etc.		
Examination: 30 marks continuous evaluation and 70 marks final examination.		
Objectives:		
<ol style="list-style-type: none"> 1. Know the dynamics of National Health Policy 2. Be familiar with the health care programmes conceived and implemented by the government. 3. Understand the Indian Healthcare System. 4. Comprehend the concepts and application of tools of economics in health care. 5. To describe the macroeconomic environment. 6. To describe the innovative health schemes. 7. To study the Cost analysis for organizations that supply health care. 		
Course Outcomes: After completion of the course the students will be able to:		
<ol style="list-style-type: none"> 1. Acquire the full knowledge of National Health Policy 2. Aware about the health care programmes of state and central governments. 3. Facilitate the society to avail health care programmes. 4. Analyze the health economics. 5. Able to use innovative health schemes. 6. Able to conduct Cost analysis for organizations that supply health care. 7. Able Analyze the scope for public-private participation in health care. 		
Syllabus		Hours
Module No.1: Health Economics and Insurance		
National Health Policy; Relevant policies in health sector; National Five-Year Plans; National Rural Health Mission; National Urban Health Mission;		
Module No. 2: National Health Programmes		
National Health Programmes like Reproductive and Child Health (Phase II) Programme, National Vector Borne Disease Control Programme, Revised National Tuberculosis Control Programme, National Leprosy Eradication Programme, National Tobacco Control Programme, Integrated Disease Surveillance Project, National Programme for Prevention & Control of Cancer, Diabetes, Cardio-Vascular Diseases and Stroke etc.		
Module No.3: Health Schemes		
Innovative health schemes: Janani Suraksha Yojna, Rashtriya Swasthya Bima Yojna etc.		
Module No. 4: Understanding Health Care		
Understanding of Macro-economic environment for making Decision in the Organizations that provide health care;		
Module No 5: Health Care Sector		
Understanding of different concepts and tools that are used in economics for understanding their applicability in the health care sector;		

Module No 6: Health Care Sector Analysis	
Understanding demand for health capital and health care; Cost analysis for organizations that supply health care and cost functions; Economics analysis for profit and non-profit health services providers; Location decision for better health delivery;	
Module No 7: health Insurance	
Economics of health policy and planning; Pricing of health services and health insurance; Scope for public-private participation in health care and its modalities.

Name of the Program: Master of Business Administration (MBA) MBAS 319: FUNDAMENTALS OF LOGISTICS MANAGEMENT		
Course Credits	No. of Hours per Week	Total No. of Teaching Hours
4 Credits	4 hours	56 hours
Pedagogy: Lectures, assignments, practical exercises, discussions, seminars, etc.		
Examination: 30 marks continuous evaluation and 70 marks final examination.		
Objectives: 1.To describe the customer service in logistics management. 2.To study the procurement and outsourcing in the context of logistics. 3.To study the importance of inventory management in the supply chain. 4.To describe inventory management in Logistics management. 5. To study the e-business solutions for supply chain. 6.To study the transport economy. 7.To study the role of Technology and Logistics information system.		
Course Outcomes: After completion of the course the students will be able to: 1.Understand the significance of customer service in logistics management. 2.Evaluate procurement and outsourcing in the context of logistics. 3.Identify with the evolving Technical factors that make logistics critical for the success of a business. 4.Understand a fresh perspective of inventory management in Logistics management. 5. Able to provide e-business solutions for supply chain. 6. Able to plan and manage logistics resource management. 7.Able to use Technology and Logistics information system.		
Syllabus		Hours
Module No.1: Introduction		
A paradigm shift, definition, scope, customer value chain, functions of logistics, logistics for business excellence, objectives of logistics management, role logistics in the economy/organization, logistics solution and future.		
Module No. 2: Logistics and customer service		
Elements of customer service, phases in customer service, customer retention, Customer service for competitiveness, service attributes, value added logistical service.		
Module No.3: Supply Chain Management		
Meaning, supply chain linkage, role of logistics in supply chain, Mapping the supply chain, e-business solutions for supply chain.		
Module No. 4: Procurement and outsourcing		
Product categorization, making or sourcing decisions, Logistics outsourcing, Outsourcing–value proposition, benefits of logistics outsourcing, critical issues in logistics outsourcing.		
Module No 5: Inventory Management		
Role, importance and functions of inventory, importance of inventory management in the supply chain, costs in inventory, reasons for carrying inventories, need for inventory control and problems in inventory control. inventory control techniques, inventory planning models		
Module No 6: Logistics delivery and fulfillment:		

Types of packaging, functions of packaging, types of packaging material, utilization, palletization, and containerization, marine, air, surface (rail & road), ports, harbours, docks and terminals, transport economics, documents in transport decision making.

Module No 7: Technology and Logistics information system

Technology: role of technology, automatic identification technology, communication technology, automated material handling, warehouse simulation, information technology. Logistics information system: logistics information needs, designing logistics information system, desired characteristics of logistics information system.

Module No 8: E-commerce logistics

A new way of shop and pay, e-commerce requirements on logistics, logistics-the backbone of e-commerce, e-logistics structure and operation, logistics resource management.

Name of the Program: Master of Business Administration (MBA) MBAS 320: CARGO AND FREIGHT MANAGEMENT		
Course Credits	No. of Hours per Week	Total No. of Teaching Hours
4 Credits	4 hours	56 hours
Pedagogy: Lectures, assignments, practical exercises, discussions, seminars, etc.		
Examination: 30 marks continuous evaluation and 70 marks final examination.		
Objectives: <ol style="list-style-type: none"> 1. To study Significance of transportation Logistics 2. To study the Railways, Roadways and Logistics Contours 3. To study the Air Cargo Logistics and Shipping and Ocean freight 4. To describe the Quality Control and Clearance of Cargo. 5. To study the Cargo Documentation required. 6. To study the Freight structure and practice. 7. To study the recent trends in cargo and freight management. 		
Course Outcomes: After completion of the course the students will be able to: <ol style="list-style-type: none"> 1. Explore freight transportation strategies to facilitate effective supply chain operations. 2. Evaluate the economic viability of various modes of transport 3. Able to formulate freight transportation strategies 4. Able to resolve problems in freight transportation and supply chain management. 5. Able to manage Quality Control and Clearance of Cargo. 6. Able to prepare, complete and get all Cargo Documentation. 7. Acquire the knowledge Freight structure and practice. 		
Syllabus		Hours
Module No.1: Introduction		
Significance of transportation Logistics- types of transportation- features of logistics transportation –participants in transportation decisions – transport infrastructure. Multi-modal transport: features– suppliers of transportation services – value – added services – ranking of carrier selection determinants. Modal Characteristics; Modal Comparisons; Legal Classifications; International Air Transport; Air Cargo Tariff Structure; Freight		
Module No. 2: Railways and Logistics Contours		
Features and facilities offered by Railways- Factors influencing growth in Rail Logistics- Suitability for different Cargo and distance Ranges segments – Innovative schemes/facilities to popularize rail logistics in India- Railway infrastructure in India and Freight movement- Share of Railways in Cargo movement in India and world-wide.		
Module No.3: Roadways and Logistics Contours		
Roadways as a primary mode and complementary mode of transportation in Logistics – Features, Facilities and suitability- Innovations in road ways to make it Logistics friendly- Factors influencing choice- Suitability for different Cargo and distance Ranges segments – Innovative schemes/facilities to popularize rail logistics in India		
Module No. 4: Air Cargo Logistics		
Introduction – Air freight operations – different types of aircraft advantages of air cargo – constraints in air cargo– air cargo tariff structure – IATA- e-Freight and EAWB.		
Module No 5: Shipping and Ocean freight		

Introduction – role of shipping – different types of ships – shipping routes – role of Suez and Panama canals in ocean shipping – operating ships – development of liner and tramp trade – organization of a shipping company.

Module No 6: Quality Control and Clearance of Cargo

Objective of Quality Control - Methods - Procedure for Pre-shipment Inspection – Role of Clearing and Forwarding Agents – Role of Inspection Agents-Clearance of Cargo - Central Excise Clearance Procedure - Central Excise Clearance Option - Shipment of Export Cargo.

Module No 7: Freight

Introduction – freight or tariff rates – freight rebates – factors involved in ratemaking. Freight structure and practice: Introduction – determinants of freight rates – contract of affreightments - sea freight – types of sea freight rates – conference liner staff – liner freight rebate system – liner freight rates – tramp rates – types of freight – ship owner’s lien for freight.

Module No 8: Cargo Documentation

Letter of Indemnity, Collecting Freight, Discharging Port Agent, Legal Principles of Charter Parties & Bills of Lading -Functions of Bill of Lading, Mate’s Receipt, Manifest. Port Community System and Ice Gate. List of Documents and Certificates Be On Board, Statement of Facts And Time Sheets, Port Agents And Law – Introduction, Practical Duties And Obligations.

11. Pawan, Kumar (2001) export of India’s major products problems and prospects. New century publications: New Delhi.

Name of the Program: Master of Business Administration (MBA) MBAS 321: TRANSPORTATION MANAGEMENT		
Course Credits	No. of Hours per Week	Total No. of Teaching Hours
4 Credits	4 hours	56 hours
Pedagogy: Lectures, assignments, practical exercises, discussions, seminars, etc.		
Examination: 30 marks continuous evaluation and 70 marks final examination.		
Objectives:		
<ol style="list-style-type: none"> 1. To describe the role and Importance of Transportation in the economy. 2. To study the transport regulation. 3. To describe the Costing and Pricing for Transportation. 4. To describe different transportation modes. 5. To study the Third, fourth and fifth Party Logistics. 6. To study the Transportation Risk Management 7. To study the Emerging trends in transportation and logistics 		
Course Outcomes: After completion of the course the students will be able to:		
<ol style="list-style-type: none"> 1. Analyze critical thinking strategies in the context of transportation management. 2. Demonstrate the technological factors of logistics and transportation. 3. Utilize data and information to make strategic transportation decisions. 4. Develop and implement freight transportation strategies for effective supply chain operations. 5. Effectively resolve problems in transportation and supply chain management. 6. Able to choose right transportation mode. 7. Able to manage transportation risk management. 		
Syllabus		Hours
Module No.1: The role and Importance of Transportation in the economy		
The role and Importance of effective transport system, principles of transportation function, objectives and functions of modern transport system – relationship of transportation to other business functions.		
Module No. 2: Transportation Regulations		
Motor Vehicle Act: Short titles & definitions, Laws governing to use of motor vehicle & vehicle transport, Licensing of drivers & conductors, Registration of vehicle, State & interstate permits, Traffic rules, Signals & controls, Accidents, Causes & analysis, Liabilities & preventive measures, Responsibility of driver, Public & public authorities, Offences, penalties & procedures. Rules regarding construction of motor vehicles		
Module No.3: Costing and Pricing for Transportation		
Transportation costs, factors influencing transportation costs, various pricing methods.		
Module No. 4: Modes of transportation		
Marine transportation, Air Transportation, Road Transportation, Rail transport, Pipelines – Importance, advantages and disadvantages. Port, Harbour, Docks and Terminals, Factors to consider when choosing mode of transport		
Module No 5: Vehicle Routing and Scheduling:		
Principles of good routing and scheduling, Methods for routing and scheduling, Route sequencing. The case of “Mumbai Dabbawalas” as a successful same day delivery		

network.	
Module No 6: Containerization	
Genesis, Concept, Classification, Benefits and Constraints; International Air Transport; Air Cargo Tariff Structure; Freight: Definition, Rate; Freight Structure and Practice.	
Module No 7: Third, fourth and fifth Party Logistics	
Courier partners, trucking companies, Shipping companies, Indian Railways, pipeline operators.	
Module No 8: Transportation Risk Management	
Insurance significance, types & principles, Perils & Hazards, Risks associated with transportation, Claim settlement.	
Module No 9: Emerging trends in transportation and logistics	
The Role of IT in Transportation -location systems, Geographic information Systems.; Ro-Ro, Cross Docking, Block Chains, Automation – Self Driving trucks, Drone Delivery.

IV Semester

Name of the Program: Master of Business Administration (MBA) MBAH 401: International Business Environment		
Course Credits	No. of Hours per Week	Total No. of Teaching Hours
4 Credits	4 hours	56 hours
Pedagogy: Lectures, assignments, practical exercises, discussions, seminars, etc.		
Examination: 30 marks continuous evaluation and 70 marks final examination.		
Objectives:		
<ol style="list-style-type: none"> 1. Understand the influence of various environment factors and the main drivers of globalization on international business operation. 2. To study the international trade barriers. 3. Describe the historical development of modern global monetary system 4. Be familiar with the political systems of different countries; and the economic and political arguments for regional economic integration 5. Recognize the current trends related to FDI in world economy. 6. To study the significance of outsourcing. 7. To study the indicators of Global competitiveness, 		
Course Outcomes: On completion of this course students will be		
<ol style="list-style-type: none"> 1. Able to face the challenges of international market. 2. Able to identify the factors influencing international business 3. Able to frame strategies to tackle the international business. 4. Able to distinguish countries based on competitiveness. 5. Able to manage the outsourcing activities. 6. Able to procure and manage FDI inflows. 7. Able to tackle the international trade barriers. 		
Syllabus		Hours
Module No.1: Introduction to International Business		
Importance nature and scope of International business; modes of entry into International Business internationalization process and managerial implications. Approaches to international business. Trade Theories.		
Module No. 2: Environmental Context of International Business		
Framework for analyzing international business environment – Domestic, foreign and global environments and their impact on international business decisions.		
Module No.3: Global Trading Environment		
World trade in goods and services – Major trends and developments; World trade and protectionism – Tariff and non-tariff barriers; Counter trade.		
Module No. 4: International Financial Environment		
Foreign investments-Pattern, Structure and effects; Movements in foreign exchange and interest rates and then impact on trade and investment flows. Capital flows, foreign investment flow and barriers: FDI and FIIs		
Module No 5: International Economic Environment		
World Economic and Trading Situation; International Economic Institution and Agreements;		

WTO, IMF, World Bank UNCTAD, Agreement on Textiles and Clothing (ATC), GSP, GSTP and other International agreements; International commodity trading and agreements. BRICS and BRICS Bank

Module No 6: Regional Economic Groupings in Practice

Regionalism vs. multilateralism, Structure and functioning of EC and NAFTA; Regional economic cooperation.

Module No 7: Multinational Corporations and their involvement in International Business

Issues in foreign investments, MNCs and host and home country relations; technology transfer, Global Operations-need and importance of outsourcing, advantages of outsourcing to India, Global manufacturing system and practices-Current issues and future developments. Global competitiveness; Indicators of competitiveness – competitive advantages of nations.

Module No 8: Emerging Developments and Other Issues

Growing concern for ecology; Counter trade; IT and international business.

Export incentives for Indian exporters, Duty free import authorization scheme, importance of special economic zones (SEZs) in industrial development, Risk management for exporter, various types of risk, Role of ECGC, Export Promotion Councils.		
Module No 5: Export Order Processing & its Legal Implications		
Methods of Payment , Role of bank in an Export- Import Transaction, Financing Exporters &		

Importers, Instruments of Payments, Pre-shipment finance, Post-shipment finance, INCO Terms , Responsibilities and Liabilities of Shipper, Carrier, Custodian etc. Terms and Conditions of Carriage, Packing, marking, labelling, pre-shipment inspections, Legal & Commercial aspects of UCP600, Overview of Marine Insurance.

Module No 6: Export-Import Bank of India

Emergence, Organisation Structure, Objectives and Functions of EXIM Bank. Stages of Export Financing. Financing Programs of EXIM Bank for Domestic Companies, Foreign Companies, Govts & Financial Institutions and Commercial Banks in India

Module No 7: Export- Import Strategies

Export Strategy Formulation , Import Strategy (Sourcing Strategy), International Marketing, Export Marketing- Going Global , Globalization , Forms of International Trade (International consumer behaviour, Selecting Markets for Exporters, Selecting Channels of Distribution, Selecting prospective buyers) , Effects of Internet on Global Marketing.

Module No 8: Maritime Laws of India: Emerging Challenges

Maritime Security, Maritime Capacity of India: Strengths and Challenges, Coastal Zone Regulation 2011 and Impact on Maritime Policy of India, Draft Marine Fisheries (Regulation and Management) Bill, 2009, Maritime Piracy Bill 2012. Maritime Terrorism: Codification of National and Counter Terrorism Laws, Transnational Maritime Crimes, Piracy and National Anti-Piracy Regime: Laws and Problems of Enforcement.

Name of the Program: Master of Business Administration (MBA) MBAS 420: STRATEGIC LOGISTICS MANAGEMENT		
Course Credits	No. of Hours per Week	Total No. of Teaching Hours
4 Credits	4 hours	56 hours
Pedagogy: Lectures, assignments, practical exercises, discussions, seminars, etc.		
Examination: 30 marks continuous evaluation and 70 marks final examination.		
Objectives:		
<ol style="list-style-type: none"> 1. Understand the significance of logistics management 2. Understand the structure of logistics management 3. To provide with the strategies of logistics management 4. Understand the significance of IT in logistics management. 5. To study the logistic planning. 6. To study the best logistic for different locations. 7. To describe recent trends in logistic management 		
Course Outcomes: After completion of the course the students will be able to:		
<ol style="list-style-type: none"> 1. Explore the conceptual and theoretical backgrounds of strategic logistic management. 2. Understand the process of strategic planning and execution. 3. Explore the logistics in strategic decisions 4. Interpret the various issues in Logistics integration 5. Evaluate the performance of Logistics. 6. Able to plan for logistic management. 7. Able to choose best logistic for different locations. 		
Syllabus		Hours
Module No.1: Introduction to Logistics		
An introduction to the strategic logistics management: meaning, strategic logistics planning; the importance of strategic logistics planning; the operating plan vs the strategic plan, logistic competitive frame work, logistic strategies across PLC, Logistic strategies – cost leadership, differentiation, value addition, outsourcing, diversification. Significance of logistics in strategic decisions, Logistics as backbone of business propositions.		
Module No. 2: Logistics system design		
Logistics reengineering, Logistical environmental assessment, Time based logistics, Anticipatory and Response based strategies, Alternative strategies, Logistical operational arrangements, Time based control techniques; Integration theory – Location structure, Transportation economies, Inventory economies, Formulating logistics strategy.		
Module No.3: Logistics Strategy and Planning		
Strategic Role of logistics, designing Logistic strategy and operation, Logistics planning Triangle, Network appraisal; Guidelines for strategy formulation – total cost concept, setting customer service level, setting number of warehouses in logistics system, setting safety stock levels, Differential distribution, Postponement, Consolidation, Selecting proper channel strategy.		
Module No. 4: Introduction to Shipping and Port Management		

Introduction to Shipping and Port Management; Key players- Principals, operators, agents, and cargo charters; Overview of owners' protective agents; Exploring technical terms in shipping; Differentiating between operators and head owners; Types of hire in shipping contracts; Vessel dimensions- LOA, draft, LBP, and moulded depth; Various vessel types and their specific uses; Implications of vessel dimensions on port operations; Understanding tariff rates in shipping; Anchorage procedures and regulations; Mooring and unmooring techniques; The crucial role of tugboats in port operations; Launch operations and their importance.

Module No 5: Transportation, Location and Warehousing strategy

Importance of effective transportation system, service choice and its characteristics, inter model service, agencies and small shipments centre, agencies and small shipment centre, transportation cost, international transportation, transportation decisions. Location strategy - single facility location, multi facility, retail / service location, importance of location decisions, choosing geographical region. Inventory forecasting, inventory policy decisions, supply scheduling decisions, Warehousing- role and function; types warehouse location decisions and IT in warehousing

Module No 6: Strategy Implementation and performance Measurement

Relating strategy to lower decisions, areas for decisions in implementation, managing change, Business process reengineering. Requirements for Global Strategy – Global Strategy implementation.– Performance measurement and reporting, logistic measurement, levels of measurement and reporting structures. Logistic costing.

Module No 7: Costing in the Shipping Industry

Introduction to Costing in Shipping ;Understanding the importance of cost management in shipping; Costing principles and methodologies in the maritime industry; Differentiating between cost heads: port charges, head owner costs, and cargo charter costs; Vessel Types and Their Cost Implications; Analysis of cost factors for different vessel types: Project, Bulk, Tanker, and Chemical Carriers; Cost-effective maintenance practices for diverse fleets; Documentation in Costing; Statement of Facts (SOF); Importance of NOR (Notice of Readiness) in cost calculations; How accurate documentation impacts cost control; Strategies for optimizing port charges, head owner costs, and cargo charter costs.

Module No 8: Recent Trends in Logistics

Reverse Logistics- scope of reverse Logistics, scope design consideration, reverse Logistics a competitive tool, Green Logistics- introduction, drivers of green Logistics, Green Logistics Management: control and compliances.

Name of the Program: Master of Business Administration (MBA) MBAS 421: WAREHOUSING, ICD AND PACKAGING		
Course Credits	No. of Hours per Week	Total No. of Teaching Hours
4 Credits	4 hours	56 hours
Pedagogy: Lectures, assignments, practical exercises, discussions, seminars, etc.		
Examination: 30 marks continuous evaluation and 70 marks final examination.		
Objectives: <ol style="list-style-type: none"> 1. Understand the significance of warehousing, ICD and packaging 2. Understand the structure of warehousing, ICD and packaging 3. To provide with the strategies of warehousing, ICD and packaging 4. Understand the significance of IT in warehousing, ICD 5. To describe the significance of material handling in warehousing, ICD and packaging. 6. To study Packaging for transportation and marking. 7. To study Warehouse- Environment, Health and safety Issues 		
Course Outcomes: After completion of the course the students will be able to: <ol style="list-style-type: none"> 1. Understand the significance of warehousing management techniques and warehouse activity profiling 2. Examine the role and functions of Inland Container Depot 3. Evaluate the various warehouse performance techniques. 4. Suggest packing design based on its cost and requirements for transportation and marking. 5. Able to manage the issues relates to Warehouse- and Environment, 6. Capable to manage the Health and safety Issues in warehousing, ICD and packaging. 7. Able to manage warehousing information system 		
Syllabus		Hours
Module No.1: Introduction		
Evolution of the concept of warehousing – importance and benefits of warehousing – legal aspects– warehouse operating principles – developing the warehouse resource – warehousing strategy. Inland Container Depot (ICDs): roles and functions – export clearance at ICDs – clearance procedure for imports – CONCOR – establishment and operation of ICDS under CONCOR – International scenario.		
Module No. 2: Warehouse activity profiling		
Profiling motivation – customer order profiling – item activity profiling – inventory profile – calendar and clock profile – activity relationship profile – investment profile. Warehouse layout: space requirements – material flow planning – adjacency planning – process location – expansion / contraction planning. Warehouse management systems: paperless and wireless warehouse systems – WMS justification, selection and implementation.		
Module No.3: Storage and Warehousing Information system.		
Storage Equipment: storage option - shuttle technology - very high bay warehouse - warehouse handling equipment - vertical and horizontal movement – Automated Storage/ Retrieval System (AS/RS)-specialized equipment-Technical advancements- Resourcing warehouse-warehouse costs- Types of cost - Return on Investment (ROI) - Charging for shared-user		

warehouse service - Logistics charging methods Warehousing Information System (WIS)- Performance management- outsourcing decisions.	
Module No. 4: Material handling	
Introduction - managing warehouse resources – material handling – handling equipment– automated material handling – order selection systems – ASRS systems – information directed systems – special handling considerations. Measuring and benchmarking: Benchmarking warehouse operations – warehouse performance measures – warehouse performance gap analysis – warehouse performance index	
Module No 5: Packaging and packing	
Introduction – labeling function – forms of labels – labels and preferences for colours, numbers and shapes – functions of packaging – packaging design – packaging materials and kinds of packaging – preparing for packaging	
Module No 6: Packaging for transportation and marking	
Introduction – types of packing boxes – containers for transportation of export cargo – procedure for packing goods – cost of packing – marking on the export boxes – types of marking – features of marking	
Module No 7: Warehouse- Environment, Health and safety Issues	
Legislation and other pressures, warehouse energy usage, energy production, the environment and waste, packaging, pallets, stretch wrap, cartons, labelling, product waste, waste disposal, Hazardous waste, forklift trucks. Warehouse health and safety-risk assessment, fire safety, slips and trips, manual handling, working at height, vehicles, ware house equipment legislation, First AID.
